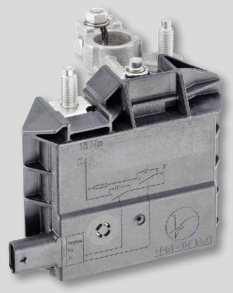
Starter Current Control for single battery topologies



PRODUCT ADVANTAGES:

- Provides voltage stabilization in a single battery system
- Safety: Pyrofuse replacement / potential free starter line
- Reduces abrasion of brushes of DC starter motor
- Smart packaging being placed on battery +pole, near starter or in between

USE CASES:

- Stop-Start: Central voltage stabilization @ 9 V, stabilized power 0,8 – 1.2 kW
- Stabilizing sensitive loads on 12 V power net
- Standalone solution providing significant cost saving compared to dual battery system or converter solutions
