

ECUs to control advanced functions e.g. heating

PRODUCT ADVANTAGES:

- Different communication interfaces
- Open load detection
- Short circuit detection
- Over voltage protection / switch off
- Precise regulation
- Compact design
- Proven EMC behavior
- Housing with different mounting options
- Protection class: IP6K8
- Withstands temperatures up to 140° C – mounted in engine compartment

USE CASE:

- Controlling various functions
e.g. glow plugs, pre-heating of the exhaust system,...
- Precise regulation of functional target
- Additional sensing function
- Extremely high loads possible
