Cooltronic Slim Hatch: Keeping cool in the summer

- **Maximum cooling power from a compact design**
- **New model specially for MAN TGX (TGA) trucks**
- **Fast and easy installation**

Esslingen, 26 April 2018 **– For professional drivers, it is important to keep a cool head, even when the temperature outside is hot. Parking coolers by Eberspaecher provide comfortable cooling during breaks and rest periods – with zero fuel consumption. New to the Cooltronic family: The Cooltronic 1000 Slim Hatch/MAN especially for MAN TGX (TGA) models.**

With a cooling power of around 1,000 to 1,400 watts, the Cooltronic family guarantees a pleasant temperature in the driver's cab. The entire unit is designed with energy-efficiency in mind and runs on battery power, making it completely independent of the engine. As a result, the cab stays pleasantly cool during rest periods and breaks or while the truck is loaded and unloaded.

New: For MAN TGX (TGA) models

Eberspaecher's proven parking cooler is now also available for the MAN TGX (TGA) truck models. The compact unit impresses with its flat design and the bespoke solution for trucks with an XLX driver cabin – with no modifications to the spoiler required during installation. The supplied installation kit especially for MAN vehicles makes installation of the pre-filled system a breeze: The Cooltronic 1000 Slim Hatch/MAN can be attached to the roof's hatch in just three hours. The installation kit comes with sealing material, fasteners and all the small parts required, matching cables as well as the internal cover panel. By remote control or using the modern control panel on the unit, the driver can
